No. 305.—The following resolution of the Government of India is published:—

DEPARTMENT OF MINISTERS,
REVENUE AND LANDS.

India, the 2nd April 1936.

No. 284-CONFERENCE.—The following papers are published for general information:—

CONFERENCE OF INDIANS IN NORTH AFRICA.

(1)

TELEGRAM TO THE GOVERNOR GENERAL OF NORTH AFRICA, CAIRO, No. 145-DA, DATED DECEMBER 21ST 1935.

Government of India understood from reports which they have received that the Minister of Interior in his speech stating that the Amos Khawassia 205 had referred to Select Committee before second reading stated that the Government of India had been informed by the Union Government that, while they were not opposed in principle to a Round Table Conference, the discussion must include question of ways and means required to make the scheme of voluntary repatriation of Indians from Africa. That Government of India agreed to the point being referred to, agreed Round Table Conference would have been held. But as we did not see our way to agree to discussion of this particular point, Union Government could not agree to conference.

2. If Dr. Malin has been correctly reported, we fear that there has been some misunderstanding regarding our attitude on this point. In our telegram dated October 17th, we made it clear that a conference of which the main object was to arrange Indian repatriation was not contemplated by us. We nevertheless indicated that we were prepared to discuss the working of the existing system of voluntary repatriation and maintained the same attitude in subsequent communications. We have never refused to consider the question of repatriation as shown described within the scope of discussion of proposed conference. We are as anxious as ever to participate in a Round Table Conference which would include repatriation question limited as shown stated within the scope.

3. We should be very glad if Mr. Minister of Interior would take an early opportunity of displaying the memorandum in which, we fear, his speech may have given rise. We understood that the "Cape Times" in a leading article in February 1936, has already taken the point that the attitude of the Government of India in refusing to discuss voluntary repatriation made the holding of conference impossible. We are sure anxious to secure an unqualified acceptance for the statement which our representatives will shortly make before the Select Committee and are confident that Your Excellency's Ministry will understand our desire to secure any arrangements which might possibly give rise to public opinion against the view which they will present.

(2)

TELEGRAM FROM THE GOVERNOR GENERAL OF NORTH AFRICA, CAIRO, DATED THE 17TH FEBRUARY 1936.

YOUR TELEGRAM DATED 25th FEBRUARY, 1936, RECEIVED. Mr. Minister desire to state that in their opinion no discussion exist between the departments of the Minister of the Interior in the Assembly in which you refer and the official state of repatriation as provided in the published memorandum.

Subsequent to my telegram dated 19th June 1935 and 14th September 1935 and in three other papers, possible doubts. It was clearly the attitude of the Union Government that no conference however restricted to any one possible unless some definite

project was laid out beforehand that it would result in a considerable reduction of the Indian population. They further clearly indicated that they welcomed initiative and proposed proposals to this effect and that their attitude with regard to holding of conference would eventually depend upon the nature and probability of any repatriation scheme as such conference. They were further desirous to suggest the particular form of additional arrangements which, with the assistance and co-operation of Government of India, might be offered to Indians as a part of such repatriation scheme besides agreeing to measures of at least one other important aspect of Indian problem which had been put forward by your Government within scope of proposed conference.

It was only after the Government of India had indicated in your telegram of 21st October 1935, that they did not intend to explore possibility of any official repatriation with the object of bringing about a considerable reduction of the Indian population but wished merely to secure themselves in helpful cooperation in connection with the existing repatriation scheme that further attempts on the part of Union Government to arrive at a satisfactory basis for a conference were dropped. My Ministry accept the statement expressed in the second paragraph of your telegram that the real attitude of the Government of India has been misunderstood by them. They also note that according to Your Excellency's telegram dated 20th November 1935, it was clearly the intention of that Government to put forward definite proposals in connection with repatriation after they had considered report of their Committee in the Union. Under those circumstances my Ministry wish to assure the Government of India that, provided they could be made to feel that they have the necessary assurance of the probability that the problem will really be effectively solved through instrumentality of a conference thus offering them a real basis for according to a Round Table Conference, they are prepared to take such steps as are within their disposal to keep the door open for a further consideration of the question.

They trust that the Government of India will realize that the progress of the RCI through Parliament cannot be held up unless such action as is already justified in Parliament and in the view of the people of South Africa and among and sympathy of the community given and thereby whose Ministers are needed to put in some very definite and substantial proposals month to be anticipated from proposed Conference they cannot over-estimate the possibility of agreeing at this stage to holding of such a conference.

The Government of India will therefore understand that the statement as he offered by them is consistent with the system of repatriation at present obtaining as far the purpose of furnishing a satisfactory basis for a conference altogether inadvisable.

(3)

TELEGRAM TO THE GOVERNOR GENERAL OF NORTH AFRICA, CAIRO, No. 537-DA, DATED 17th 1936.

YOUR telegram dated March 1936. We have not yet seen text of speech delivered by Minister of Interior on February 17th, and are therefore glad to receive assurance from Your Excellency's Government that it was in no way discrepant with the actual course of repatriation.

Your Excellency's telegram makes it clear to us that Union Government are not anxious to limit of a conference provided that they are satisfied that such conference will hold out definite prospect of leading to real and effective solution of Indian problem. We appreciate desire of Your Excellency's Ministry to obtain assurance on this point

and to find a formula acceptable to your Government and more or less of conference which would result in a decision to be reached. We ourselves are equally anxious that if a conference takes place, it should not prove abortive or lead to misunderstanding and in view of this about in view that we desire that there should be no misapprehension about our own attitude. As we explained in our telegram of December 20, we are unable to agree to a conference of which the object would be to effect a considerable reduction of the Indian population and we still adhere to this opinion. In our view the right method of settling a real and effective solution of the Indian question would be for both parties to enter the conference without being committed in advance to any particular solution of the question at issue. We ourselves should enter such a conference with the sincere intention of discussing freely with the Union Government all possible methods of settling the Asiatic question, of understanding the difficulties which have led to the present policy of South African Government and of explaining our own difficulties in ascertaining the policy and the objects which we have in view. In the circumstances of better mutual understanding which we believe that exchange of views will establish, we are hopeful that agreement may be reached possible as to general lines on which questions can be finally settled.

3. As preliminary step we would suggest that Union Ministers might request to confer informally with leaders of our deputations with a view to ascertaining whether changes in way of conference would be a success. We would of course agree to accept Paddison with philosophical poise to act as our host and any arrangement suggested after consultation with Your Excellency's Ministers would be subject to our confirmation after receipt by us of his report and after discussion with him. We are impressed with difficulty of arriving at understanding by telegraphic correspondence and it is our first earnest that we propose personal discussion and have always held that conference efforts most hopeful method of dealing with this question.

4. In the event of agreement being reached regarding conference, meetings between representatives of the Government and of Union Government might conveniently be held, either formally or informally, at time of meeting in October next of Imperial Conference or, if necessary, at an earlier date. We assume that program with regard to pending legislation would be held up until Conference has had opportunity of discussing questions on all its bearings.

(4)

TELEGRAM FROM THE GOVERNMENT GENERAL OF SOUTH AFRICA, DATED THE 12TH (RECEIVED 14TH) APRIL 1926.

In reply to your telegram, dated 24th March, 1926, my Ministers desire to inform Government of India that in accordance with their request the Prime Minister and the Minister of the Interior have individually conferred with Mr. Paddison, leader, and Mr. Baggall, Secretary, of deputations and that conversations have satisfactorily resulted in a generally better understanding and appreciation of respective points of view and difficulties of the two Governments.

2. My Ministers do not consider the divergence in point of view as to the difficulties so great that it should be deemed impossible to find a satisfactory basis for future negotiations, which might lead to an amicable settlement, or long as it remains understood that each Government shall on both sides be careful not to condemn with sincere desire and intention to cooperate in finding real and effective solution of the Indian problem. Any conference which would justify to be interpreted as a mere attempt from outside to prevent the Union Government from

dealing with its own problems in its own way will be resented by the people of South Africa and would be destined to be unsuccessfull.

3. As was pointed out in previous correspondence the European community in South Africa consider that their economic interests and criticisms are seriously menaced by the presence and further competition of Asiatics and the demand on their part that steps shall be taken without delay to restrain that menace is insistent and persistently maintained. This fact has been conclusively established by evidence which has been presented to the Select Committee. My Ministers therefore with respect upon the Government of India that public opinion in South Africa will not view with favour any settlement which does not hold out a reasonable prospect of safeguarding the maintenance of western standards of life by just and legitimate means. If the Government of India would accept this procedure of justice as its earnest aim and would further support their willingness to assist in expediting all possible methods of settling the Asiatic question, the Union Government will be ready to accept their offer to enter into a conference for the purpose. Any proposal which such a conference might make would be subject to confirmation by the Governments of the two countries.

4. In order to ensure that the Conference, if finally agreed upon, should not under any circumstances my Ministers have decided, subject to the approval of the Select Committee and Parliament, not to proceed further with the Arms Registration and Immigration and Registration (Further Provisions) Bill until results of conference are available.

5. Should the reply of the Government of India be favourable and final agreement in regard to the holding of a conference be reached by Ministers subject to such agreement shall be embodied in a following manner which would form basis and be included in any official publication as to be made at a later date: "The Government of Union of South Africa and Government of India have been further in communication with each other regarding the best method of arriving at an amicable solution of Indian problem. The Government of the Union have expressed upon Government of India that public opinion in South Africa will not view with favour any settlement which does not hold out a reasonable prospect of safeguarding the maintenance of western standards of life by just and legitimate means. The Government of India are prepared to assist in expediting all possible methods of settling Asiatic question and have offered to enter into a conference with the Union for the purpose. Any proposal that Conference might make would be subject to confirmation by the Governments of the two countries. The Union Government have accepted offer of Government of India and in order to ensure that Conference should meet under best auspices have decided, subject to approval of Select Committee and Parliament, not to proceed further with Arms Registration and Immigration and Registration (Further Provisions) Bill until results of conference are available."

PRESS COMMUNIQUE.

Colombo, May 12, 1926.

No. 125.—The Madras Government forwarded to the Government of India a draft of a Land Revenue Settlement Bill for the Madras Presidency which contained provisions giving the local Legislatures the power to fix by means of a Finance Bill the money value of assessment both at initial settlements and at re-settlements. The Government of India have expressed their inability to accept the proposal on the grounds that it involves a fundamental departure from the practice which has hitherto been observed in land revenue settlements throughout India, that no similar proposal is contained in the legislation which either has been introduced or is about to be introduced on the subject in other parts of India, and that a careful examination of the language used by the Joint Select Committee shows that their support cannot be claimed for the proposal. Apart from the question whether the Legislative Council would be prepared to consider a Bill that did not contain the provisions in question, it would not be possible at this period of the life-time of the present Council to pass a Bill at this stage through all the prescribed stages before the dissolution. Hence the Government do not propose to introduce the Bill in the present Council.

8. Interpretation.
9. Extension of powers of Board of Trade under Act.

11. Short title and application.

A Bill to require an indication of origin to be given in the case of certain imported goods.

Enacted by His Majesty's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:—

1. It shall not be lawful to sell, expose for sale, or distribute by way of advertisement, in the United Kingdom, any goods which bear any name or trade mark, being, or purporting to be, the name or trade mark of any manufacturer, dealer or trader in the United Kingdom, not being goods produced or wholly or mainly manufactured therein, unless the name or trade mark is accompanied by an indication of origin.

2. (1) Where the appropriate department within the meaning of this Act, after an enquiry has been held by a committee appointed for the purposes of this Act (in this Act referred to as "a committee") and the report of the committee on the matter has been taken into consideration by the department, is satisfied that it is in the interest of trade in the United Kingdom or of trade between the United Kingdom and any other part of His Majesty's Dominions, that imported goods of any class or description to be sold or exposed in the United Kingdom should not be sold unless they bear an indication of origin, His Majesty in Council may, on a representation to that effect being made to him by the department and subject to the provisions of this Act, make an Order prohibiting the sale, or the exposure for sale in the United Kingdom, of imported goods of that class or description unless they bear an indication of origin.

(2) If it appears to a committee to be desirable that any imported goods being foodstuffs should bear an indication of origin at the time of acquisition, and the committee on reports to the appropriate department, His Majesty may by Order in Council under this section (without prejudice to his power under the preceding sub-section) make provision accordingly, and if any such goods required by any such Order to bear an indication of origin at the time of acquisition do not at that time bear such an indication they shall be deemed to be goods which

are prohibited to be imported by virtue of section 1 of the principal Act.

Provided that nothing in the foregoing provisions shall be taken to be in derogation of anything contained in the said section 1.

(3) If it appears to a committee that imported goods of any class or description to be sold in the United Kingdom ought not to be sold unless distinguished from similar goods manufactured in the United Kingdom but that by reason of the nature of the goods it is not practically possible to apply either a label or effectively an indication of origin to those goods, and the committee on reports to the appropriate department, His Majesty may by Order in Council under this section provide that imported goods of that class or description shall not be sold, or exposed for sale, in the United Kingdom, unless they are distinguished from similar goods manufactured in the United Kingdom by some form of distinctive labelling or other variation in their making, which shall be different in the case of goods manufactured or produced in a foreign country and in the case of goods manufactured or produced in a part of His Majesty's Dominions outside the United Kingdom.

(4) A committee shall, from time to time, and as soon as may be practicable in each case, make reports to the appropriate department on matters of origin or description of goods, if any, with respect to which, in the opinion of the committee, an Order in Council ought to be made under this section, and the committee may, if it thinks it desirable, and shall if so required by the appropriate department, recommend in which form and manner the indication of origin should be applied to the goods, or, in the case of goods to which the last preceding sub-section applies, the manner by which the goods are to be made distinguishable.

(5) An Order in Council under this section shall specify in every case—

(a) the manner in which the indication of origin is to be applied to the goods, or, in the case of goods to which sub-section (3) of this section applies, the manner by which the goods are to be made distinguishable; and

(b) the date (not being a date earlier than three months from the date of the making of the Order) on which the Order is to come into force; and also, if it relates to goods being foodstuffs, whether the goods are to bear an indication of origin at the time of importation or of exposure for sale wholesale, and any such Order may contain such other provisions as appear to His Majesty to be necessary or expedient for carrying this section into effect.

3. (1) For the purposes of this Act, the said Committee shall be a committee of which one (in this section referred to as "the appropriate") shall be a member.

(2) It shall be the duty of the appropriate member to appoint and to recommend to His Majesty the persons to be members of the committee, and to recommend to His Majesty the persons to be members of the committee, and to recommend to His Majesty the persons to be members of the committee.

(3) Both committee shall, subject to the provisions of this section, consist of not less than three and not more than five members, and shall be appointed by the appropriate department.

(4) The members of a committee shall hold office for such period as the department by which the committee is appointed shall fix, and the department may from time to time alter any vacancy occurring in the membership of the committee.

(5) There shall be paid to the members of a committee such fees or other remuneration as the appropriate department, with the consent of the Treasury may determine.

4. (1) If any person—

(a) sells, exposes for sale, or distributes by way of advertisement, any goods in contravention of the provisions of this Act; or

(b) and its introduction at or into is exempt with any duty in Council made under this Act, he shall, subject to the provisions of this section, be guilty of an offence against the principal Act.

Provided that in the case of any goods which are a person being a wholesale dealer in any goods other than goods being foodstuffs which by virtue of an Order in Council made under this Act are required to bear an indication of origin at the time of importation or of exposure for sale, whether it shall be a good defence to proceedings under this section if that person satisfies the court that the goods were sold to the purchaser as an undertaking in writing that they would either have an indication of origin applied to them in accordance with the requirements of the Act or any Order in Council made thereunder or would be exported or sent for exportation to a place outside the United Kingdom, and any such undertaking in writing if it appears to be signed by the purchaser and specifies the exact nature and address of the purchaser shall be admissible as evidence of the facts appearing thereon.

(c) If any person introduces or offers for sale as being goods of a particular kind or nature otherwise under a specific designation any imported goods of a class or description to which an Order in Council under the Act applies, he shall, if he does not include in the advertisement or other indication of the origin of the goods, and subject to the provisions of this section, be guilty of an offence against the principal Act.

(d) Where any person sells, or exposes for sale, any goods of which any imported goods, being goods to which an Order in Council under this Act applies, form a distinguishable part, and that part is reasonably capable of having applied to it an indication of origin in manner required by the section, he shall, for the purposes of this section, be deemed to have sold, or exposed for sale, that part, and the provisions of this section shall apply accordingly.

(e) It shall not, within the United Kingdom be lawful to sell, or cause to be submitted to any person samples of goods of a class or description in which an Order in Council under this Act applies unless the required indication of origin is applied to the sample or unless particulars corresponding to the particulars which would be contained in such an indication are accompanied to, or kept up to the point at which the sample are submitted, and if any person acts in contravention of the provisions of this section he shall, subject to the provisions of this section, be guilty of an offence against the principal Act.

(f) A person shall not be held to be being guilty by virtue of this section of an offence against the principal Act if he proves—

(a) that having taken all reasonable precautions against committing such an offence he had at the time of the commission of the alleged offence no reason to suspect that the goods were goods to which the Act or any Order in Council made thereunder applied, and that on a demand made by or on behalf of the goods or the name of the information is his power with respect to the person from whom he obtained the goods; or

(b) that the goods he had acted honestly.

And where any Order in Council is made under this Act in effect the Order shall be held to have been made in respect of the goods only if it is made within the next calendar year after the date on which that Order was made, and that after the date is held before it resolves that an Address be presented to His Majesty against the death or any part thereof, or further proceedings shall be taken thereon, but without prejudice to the making of a new death Order.

(g) An Order in Council made under this Act may, as a condition to His Majesty by the

appropriate department, but without any enquiry by or report from a committee, be restricted or varied by a subsequent Order made in accordance with the provisions of this section.

Provided that any such Order shall not be varied by the inclusion therein of any further goods, unless an enquiry has been held by a committee with the committee has presented to the appropriate department a report recommending that an Order in Council under this Act should be made in respect of those goods.

6. If any person remove, alter or obliterate an indication of origin which is compliance with the requirements of an Order in Council made under this Act was borne by the goods at the time of their importation or exposure for sale, whether he shall be guilty of an offence against the principal Act, unless he proves to the satisfaction of the court that he was not the person who removed, altered or obliterated the mark for the purpose of some thing the origin of the goods at the time of their sale or exposure for sale.

7. (a) Every local authority authorized to appoint an officer for the purpose of the Sale of Food and Drugs Act, 1874 in 1887, may, as far as relates to any goods being foodstuffs, exercise any of the powers of the Act other than provisions relating to the importation of goods, and any offence incurred by a local authority under this section shall be deemed to be an offence against the provisions of the Act.

(b) An officer of any such local authority as aforesaid, if informed in that behalf by the authority and on production of any evidence, at his authority, may at any time during the hours when the provisions are open for the business enter any premises on which he has reason to believe that there are kept for sale any imported foodstuffs to which the Act applies and take samples of any goods which appear to him to be such imported foodstuffs, and any person who obstructs an officer as aforesaid in the execution of the powers conferred on him by this section shall be guilty of an offence against the principal Act.

NOTIFICATIONS.

Fort St. George, May 12, 1926
(G.O. No. 535, P.H.).

No. 460.—In order to give effect to the scheme sanctioned in G.O. No. 1023, P.H., dated the 21st October 1924, for the extension of medical relief in the rural areas of the Presidency the Government made provision in the Civil Budget Estimate for 1925-26 for the payment of subsidies for the opening of village dispensaries at the rate of two for each taluk board area on the average and up to the end of that year the opening of 227 dispensaries was sanctioned. The scheme has proved popular with taluk boards and more than thirty of these boards have expressed their readiness to open additional dispensaries within their jurisdiction. As however no funds were available for the opening of additional dispensaries during 1925-26 they were requested to secure their applications after 1st April 1926.

It is universally agreed that the facilities for efficient medical treatment in rural areas are quite inadequate. There are at present only 848 allopathic medical institutions in this Presidency including the 227 rural dispensaries, the opening of which has been recently sanctioned by the Government; and the people in the greater parts of the Presidency have hitherto had to depend solely upon the services of untrained village doctors and ignorant barber women. In order to mitigate this

state of affairs the Government have incorporated the scheme contained in G.O. No. 1825, P.31, dated the 26th October 1928.

3. This scheme the Government consider to be the cheapest and most effective method of placing facilities for dispensable medical treatment within easy reach of those living in the remote parts of the Presidency and in view of the fact that the scheme has proved popular they have decided to increase the number of rural dispensaries to 300 during the current year so that the establishment of these dispensaries within each of the 128 taluk boards comes in the Presidency may be rendered possible. They have accordingly made the necessary provision for the purpose in the Civil Budget Estimate for 1929-30.

4. All taluk boards are therefore requested to submit their proposals etc. very early for the opening of additional dispensaries within their jurisdictions after consulting all consultations with the District Medical Officer concerned the place in which the dispensaries are to be established.

Port St. George, May 11, 1929.
(G.O. No. 2028, L. & M.)

No. 401.—In G.O. No. 888, L. & M., dated 15th February 1929, a draft of an amendment which the Government proposed to make in rule 234 of the Local Boards Rules was published for general information. No objections or suggestions in regard to the amendment having been received the amendment is now confirmed. The amended notification will be published in the Port St. George Gazette.

NOTIFICATION.

In exercise of the powers conferred by clause (c) of sub-section (2) of section 292 of the Madras Local Boards Act, 1920 (Act XIV of 1920), the Local Government hereby make the following amendment in rule 234 of the Local Boards Rules published with the notification of the Local Government in the Local and Municipal Department No. 25 on pages 49-57 of Part I-A of the Port St. George Gazette, dated 25th January 1929:—

AMENDMENT.

The following shall be inserted as a proviso to rule 234 of the Local Boards Rules:—

Provided that the maximum limit of cost shall be Rs. 1,000 in the case of works entrusted for execution to panchayats constituted under the Madras Village Panchayat Act, 1920 (XV of 1920).

5. The register prescribed by rule 4 shall contain the names, father's names and residences of each recognized clerk, the date of his registration, the name of the pleader by whom he is employed, the courts in the districts in which his employer is authorized to practice, the date of his removal from the register and a column for remarks. Copies of the register shall be supplied by the District Judge at the commencement of each year to the Sub-Judges and District Messals within his jurisdiction.

Note.—For form of register, see Appendix I.

6. No clerk employed by a pleader shall as such be allowed access to any of the courts of the district, or to any of the offices attached thereto, unless he is for the time being a recognized clerk.

7. 8. The District Judge may, at his discretion, refuse to register again a clerk who has been removed from the register on account of his disqualification or discharge.

9. No person registered as the clerk of one pleader shall be deemed to be the clerk or officer thereof on behalf of any other pleader except in the case of illness or absence on leave of any recognized clerk, when the presiding Judge of the Court may at the written requisition of the pleader under whom the clerk is engaged permit the recognized clerk of another pleader to discharge the absent clerk's duties for a period not exceeding fifteen days.

10. If on the death, retirement, discharge, or dismissal of a recognized clerk, a pleader wishes to substitute another in his place, he shall apply for recognition as required by rule 7 and shall be entitled to look into the register to verify himself as to whether the person seeking his employment had previously been in the employment of another pleader.

11. Nothing in these rules shall be deemed to authorize indiscriminate entry of pleaders' clerks into the offices attached to the courts or any violation of the High Court Circular No. 148, dated the 6th February 1905.

APPENDIX II.

Form.

Form No. 108.

In pursuance of G.O. No. 1184, dated 26th December 1904, the following order is issued by the High Court for the information and guidance of all District Courts subordinate to the High Court:—

No pleader, pleader's clerk, party or other person not belonging to the establishment should ever be allowed to enter the office rooms in which the clerks are employed. The only clerk with whom the outside public is allowed to deal is the chief ministerial official of the Court, and he should act apart from the other clerks, in a separate room if possible, and

should these receive plaints, petitions, etc., and answer such questions, as pleaders and others are entitled to ask him. It is utterly subversive of all discipline to allow pleaders' gentlemen to go into the clerks' room to talk to them and see papers there.

Note.—This order is not intended to prohibit pleaders and others who have business with the Superintendent of Criminals in the Court or Deputy Clerk, or in a District and Sessions Court, with their clerk, from seeing him when he is in the room where they sit.
